

Supplemental Appropriations #23-9, Assistance to Access Abortion.

Montgomery County Council Hearing date July 26, 2022, 1:30 pm.

Four reasons for NOT funding abortion access...

- 1. It is immoral to kill another human being. Current law makes that clear: if you kill another human being you will go to jail. If another person kills you they will go to jail. The preborn are exceptions in Maryland law – they can be killed (aborted) through all nine months of their preborn life even though it is a scientific fact the preborn are human beings. And it is obvious that human beings only procreate other human beings. There is no magical point during pregnancy when the preborn become more human. Please do not spend taxpayer funds on such terribly immoral killings (abortions).**
- 2. Since killing the preborn, which is an unjust immoral way of solving a problem which most often could have been avoided, has become a "way of life" in our society, killing has also become a way to solve other problems. We see killing, including mass shootings, soaring crime rates and general disrespect for the law. Please do not support the solving of problems with killing.**
- 3. Promoting the killing of the preborn is a terrible racist legacy of Margaret Sanger. Black women are aborted at three times the rate of white women. [Rev. Walter B. Hoyer II](#), founder of the [Issues4Life Foundation](#) commented on the recent U.S. fertility rate, "In order for any demographic to continue to exist, the replacement level is 2.1. In order for the black community to survive, every black woman of reproductive age must have an average of 2.1 children. In [2017](#), the total fertility rate for the black community was 1.8. The current rate is 1.7. If this trend continues, [by 2050](#) the total Black Fertility Rate will have dropped to 1.3 or lower." Hoyer said, "There's no economic model in the world that will let [us] bounce back ... If we don't stop aborting our children at the rate that we are aborting them now, no more no less, we just keep on doing it ... we're going to be facing irreversibility," he concluded. Please do not support this racism.**
- 4. Killing the preborn is readily available in Montgomery County. No additional support is needed. Women come from all the surrounding jurisdictions for abortions. Don't waste taxpayer money. Spending another million dollars on killing the preborn is totally unnecessary. The General Assembly has already provided six million dollars for more abortions in a state not in any way affected by the Supreme Court overturning Roe. There is absolutely no reason for the County Council to waste the people's money, especially in these difficult economic times.**

Supplemental Appropriations #23-9, Assistance to Access Abortion.

Reasons for **NOT** funding abortion access...

1. It is immoral to kill another human being. Current law makes that clear: if you kill another human being you will go to jail. If another person kills you they will go to jail. The preborn are exceptions in Maryland law – they can be killed (aborted) through all nine months of their preborn life even though it is a scientific fact the preborn are human beings. And it is obvious that human beings only procreate other human beings. There is no magical point during pregnancy when the preborn become more human. Please do not spend tax-payer funds on such terribly immoral killings (abortions).
2. Since killing the preborn, which is an unjust immoral way of solving a problem (which most often could have been avoided), has become a way of “life” in our society, killing has become a way to solve other problems. So we see people solving their problems by killing, including the mass shootings, by soaring crime rates and general disrespect for the law. Please so not support the solving of problems with killing.
3. Promoting the killing of the preborn is a terrible racist legacy of Margaret Sanger as Black women are aborted at three times the rate of white women. [Rev. Walter B. Hoye II](#), founder of the [Issues4Life Foundation](#) commented on the recent U.S. fertility rate, “In order for any demographic to continue to exist, the replacement level is 2.1. In order for the black community to survive, every black woman of reproductive age must have an average of 2.1 children. In [2017](#), the total fertility rate for the black community was 1.8. The current rate is 1.7. At this rate, [by 2050](#) the total Black Fertility Rate will have dropped to 1.3 or lower.” Hoye said, “There’s no economic model in the world that will let [us] bounce back ... If we don’t stop aborting our children at the rate that we are aborting them now, no more no less, we just keep

on doing it ... we're going to be facing irreversibility," he concluded. Please do not support this racism.

4. Killing the preborn is readily available in Montgomery County no additional support is needed.. Women come from all the surrounding jurisdictions for abortions, don't waste taxpayer money. Spending another million dollars on killing the preborn is totally unnecessary. The General Assembly has already provided six million dollars for more abortions in a state not in any way affected by the Supreme Court overturning Roe. There is absolutely no reason for the County Council to waste the people's money, especially in these difficult economic times.
